

ANSWER SHEET

QUESTIONS FOR LASIK/PRK INFORMED CONSENT VIDEO

Name (print): _____

Date: _____

The following questions cover important information contained in the video presentation. Please mark the correct answer. If you need more time to answer a question than the video presentation allows, skip that question and return to it when the program is over.

1. True or False: There may be long-term effects from LASIK/PRK that are not yet known.
2. True or False: LASIK/PRK changes your vision by permanently changing the shape of your cornea.
3. True or False: After undergoing LASIK/PRK, it is guaranteed you will never need glasses or contact lenses again.
4. True or False: The majority of LASIK/PRK patients' vision is improved to 20/40 or better.
5. True or False: In some cases, a second procedure or enhancement may be necessary.
6. True or False: LASIK/PRK specifically addresses and treats presbyopia or "aging of the eye".
7. True or False: With LASIK/PRK, 20/20 vision or better is guaranteed.
8. True or False: Your individual healing process may affect your results.
9. True or False: Monovision procedures balance good distance vision with good close vision.
10. True or False: An infection could cause loss of best-corrected vision.
11. True or False: After LASIK/PRK, irregular healing could make wearing glasses or contacts necessary.
12. True or False: Blurry vision or halos at night are possible side effects that usually, but not always, decrease over time.
13. True or False: Although usually temporary, persistent dry eyes or discomfort are possible side effects.
14. True or False: Potential risks include overcorrection and undercorrection.
15. True or False: This video covers every conceivable potential problem or risk associated with LASIK/PRK.
16. True or False: A person having LASIK/PRK should be at least 18 years old.
17. True or False: If you are pregnant or nursing, you should have LASIK/PRK immediately.
18. True or False: LASIK/PRK is an elective procedure -- you may choose not to have it.
19. True or False: There are no other refractive procedures that can correct poor vision.
20. True or False: After undergoing LASIK/PRK, most people achieve good vision without the use of visual aids.
21. True or False: It is possible to lose all useful vision with LASIK/PRK.
22. True or False: I will definitely be able to wear contact lenses after LASIK/PRK.
